Interactive Flat Panel Displays

maxell
Within, the Future

MA-6510 | MA-7510 | MA-8610

Available in a range of sizes and two colors to suit any environment, our interactive screens feature crystal clear resolution and highly responsive touch screen technology.

Engage • Involve • Inspire

This smart range of Maxell Interactive flat panel displays incorporate a host of clever features like 10 person multi-touch and have been designed for a variety of uses from boardrooms, classrooms, lecture theatres, foyers, and consultation rooms. The bright LED anti-glare screen, wide viewing angle and two powerful speakers bring presentations to life, with the clean contemporary slim white bezel blending perfectly into most environments, making sure that nothing distracts from the message on the screen. Maxell has it all covered. From the 65" size for huddle meetings through to the largest 86" interactive display for demanding mission-critical applications. With the very latest operating platform capability you can forget time-consuming set-ups and the option of a built-in PC means you don't need any type of external source at all. All you need to do is walk in, turn it on and use.

INTERACTIVITY

Multi-touch Capability for up to Ten People

Maxell's Interactive Flat Panel Displays turn every presentation into an involving experience. Instead of passively viewing, up to 10 people can interact with the screen at the same time, using the supplied stylus pen or their fingers.

Anti-glare Screen

Maxell's Interactive Flat Panel Displays achieve 100% light transmission for outstanding colour, clarity and accuracy – even in direct sunlight.

Useful Features

This range has a host of useful features like built in scheduler, panel lock, advanced colour settings, auto signal turn on and movable Remote Control receiver.

Black or White Bezel *

You can choose which colour model you want depending on your environment. These model are available in Black or White.
* Depending on your region.

Ensure Best Picture Quality

Ultra HD Resolution achieves the best Image. No distortion and outstanding quality with a wide viewing angle means the user and audience are not compromised in any way. The outstanding resolution of UHD vividly delivers high quality images or video content.

DESIGN

Wall Mounting Bracket Included

The supplied bracket allows the units to be safely mounted to most walls without incurring additional expense. As the bracket is a standard VESA mount it's also compatible with the majority of third party trolley manufacturers allowing the unit to be easily moved from room to room.

Connectivity

These Interactive Flat Panels have a number of connectivity solutions: 3 x HDMI, HDMI Out, Display Port In & Out, Computer In and two built in USB ports. Also RS232 control is available via serial port or wired network. Wireless presentation can be used to mirror your contents on the screen with a compatible device.

* Most Windows and Android Devices

PC Module

The PC module is available as two types; as either built in or as a separate accessory* This PC Module can be connected to a network (wired or wireless), has four USB ports and HDMI output to a second display.

*Region dependent

External Devices

All the range is fully compatible to connect your external devices via HDMI, Display Port or computer in. All these ports will mirror seamlessly your content onto the screen using the micro USB port for interactivity.

Toughened Glass

With 4mm anti-glare glass technology maximising the usability and visibility of the screen in bright light conditions, and without shadow. The toughened glass is also fully heat tempered and gives an ultra smooth touch when using the interactivity.

Service and Support

Your Maxell interactive display has been manufactured to the highest standards of care, attention and quality. However if something was to go wrong we offer an on site service* giving you peace of mind in the unlikely event if anything was to go wrong.

*Depending on your region.

Long-lasting Performance

The Interactive Flat Panel Displays really highlights Maxell's reputation for quality and reliability. Its components have been designed and tested for longevity ensuring low running costs and budget savings throughout its lifetime.
